

Doctor Profile

Mr Ian Freedman

MBBS (Melb) FRACS FAOrthoA

Orthopaedic Surgeon

Biography

Mr Ian Freedman is a Melbourne and International Fellowship-trained Orthopaedic Surgeon specialising in “Bikini” Minimally-Invasive Anterior Hip Replacement and Patient-Specific Partial and Total Knee Replacement.

Mr Freedman trained as an Orthopaedic Surgeon in Australia and then received a prestigious scholarship from the European Federation of Orthopaedics and Traumatology to undertake fellowship training at Clinique du Sport in Paris, France.

Mr Freedman also completed a second international fellowship at the internationally renowned Hip Preservation Unit in Warwick, United Kingdom where he was involved in the treatment of professional athletes, such as English Premier League footballers and Olympic Athletes.

Mr Freedman is an international instructor for Anterior Hip Replacement, and was the first surgeon to bring Anterior Approach Total Hip Replacement to Gippsland.

Mr Freedman is also the first surgeon to offer individualised 3D-printed Total Knee Replacement in Regional Victoria. Unlike conventional off-the-shelf implants, these new implants are specifically designed and made for each patient’s unique anatomy.

Mr Freedman is pleased to offer the very latest orthopaedic technologies to local patients at Maryvale Private Hospital.

Mr Freedman consults in Warragul and at Maryvale Private Hospital and has regular operating sessions at Maryvale Private Hospital.

Specialties

- Minimally Invasive Anterior Hip Replacement
- Customised 3D Printed Partial and Total Knee Replacement
